

Pavo Care4Life

Healthy mix with herbs to balance your horse

Pavo Care4Life contains everything which we can think of from a feeding viewpoint to support your horse's health. This special feed exists of, among other things, fibre-rich raw material, omega-3 and omega-6 fatty acids, prebiotics and probiotics, yeasts, 11 different herbs* and vitamins and minerals in an organic form. These substances play a role in the purification processes of the body and enable residues to be properly carried off. Very special is the addition of collagen, which supports healthy cartilage.

But just as important as what the feed does contain, is what it does not contain! Pavo4Life does not contain any substances that burden the system unnecessarily. It contains only 9% sugar-starch! It does not contain any wheat, wheat by-products, molasses, gluten or oats. Pavo Care4Life fits in the diet of all horses!

**The herb complex contains 11 herbs, including Echinacea and Calendula. For more details about all the herbs, please visit www.pavocare4life.net*
