

Pavo DailyPlus

The natural way to feed

Wild horses graze for 16 hours a day, making around 40,000 chewing motions. Domesticated horses chew much less.

Pavo DailyPlus is a balanced forage (feeding value equal to good hay) that you mix with concentrates in order to stimulate your horse's chewing and saliva production. Plenty of chewing combats boredom and healthy saliva production reduces the risk of gastric ulcers. Pavo DailyPlus is the formula for a contented horse.

Important characteristics

- stimulates chewing – by up to 3 times
- extends the duration of eating – by up to 3 times
- reduces the risk of gastric ulcers
- combats boredom
- ideal for combating feed envy
- promotes healthy digestion

Application

Ideal for all horses and ponies of all breeds and in all disciplines.

Contains

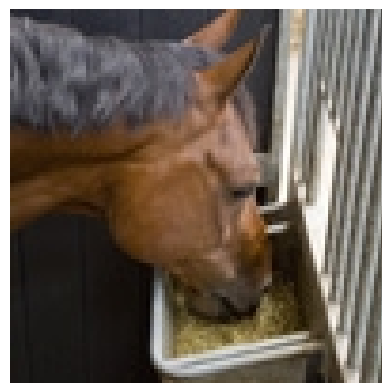

Lucerne
Barley Straw
Semolina
Cutting Oats
Cane Molasses
Grass
Sunflower Scrap
Palm oil
Minerals

Guaranteed yields

DE	7,8 MJ/kg
Energy (EWP _a)	0,54 Unit/ kg
Crude protein	10,5 %
Crude fat	2,4 %
Crude fibre	26 %
Crude ash	9 %
Sugar	8,9 %
Starch	3,2 %

Minerals and trace elements (per kg)

Calcium	0,6 %
Phosphorus	0,3 %
Sodium	0,1 %
Potassium	2,11 %
Magnesium	0,3 %
Zinc	- mg
Iron	- mg

Selenium	- mg
Manganese	- mg
