

Pavo SummerFit

The daily vitamin and mineral supplement

Many horses and ponies need little or no concentrated feed. But forage alone doesn't contain enough vitamins and minerals for their daily needs. Pavo SummerFit is a tasty biscuit that provides a day's dose of vitamins and minerals, but without the extra energy and calories of concentrates. This is because a single 165 g biscuit per day (half a biscuit for ponies) meets your horse's needs. In addition, the biscuits contain minimal protein. They make an ideal addition to a forage diet.

Important characteristics

- 1 biscuit = daily dose of vitamins and minerals
- no surplus calories
- for all breeds in all seasons

Application

Ideal for horses and ponies that:

- spend all day on pasture
- need little concentrated feed for one reason or another
- could use extra vitamins and minerals, for example after illness
